NGUYEN HUNG

WEB DEVELOPER

OBJECTIVE

My goal is to become a full-stack developer. Capable of handling difficult problems, and bringing their products to customers in the most thoughtful way.

WORK EXPERIENCE

🛠 FRONT END DEVELOPER // 01/07/2022 - 30/03/2023

Pixelcent

Perform UI and UX development by design. Write refactorable pieces of code and evolve them. Participate in code review, and build ideas for product development. Participate in meetings with the team to propose website development solutions

EDUCATION

🎓 INFORMATION TECHNOLOGY // 02/08/2019 - now

University Information Technology (UIT)

PROJECTS

🔗 PRICEGUILD CARDS // 07/07/2022 - 07/12/2022

Name of customer: Mr. Tom

My team size 2

My position in project: Front-End Dev

Use technologies such as ReactJs, NextJs, Socketio, and related libraries in web development, operation, and maintenance. Fix bugs related to the client side. Communicate directly with customers to agree on new features for the website

Technology description

NEXTJS, TYPERSCRIPT, SOCKET.IO, SCSS, DOKER, PYTHON, MYSQL,...

🔗 CIMIGO // 08/12/2022 - 30/03/2023

Name of customer: Mr. Son Thanh

My team size: 5

My position in project: Front End Dev

Perform UI building, UX development, code refactoring, and new feature development. Get assigned tasks from the leader. Communicate with testers & QA in finding and fixing bugs. Report daily work to the leader.

Technology description

REACT, TYPERSCRIPT, STYLED COMPONENT, SCSS, NODEJS, MYSQL,...

🔗 TRAVEL WEBSITE // 08/06/2022 - 30/08/2022

Name of customer: No body

My team size: 1

My position in project: Full-Stack (Node.js)

This is a personal project. A website allows users to search for information about tours, leave reviews, and manage records of tours they have booked. There is also a dashboard that allows admins to perform CRUD operations on the necessary information on the website.

Technology description

REACT, STYLED COMPONENT, SCSS, NODEJS, MONGODB,...
