SKILLS & TECHNOLOGIES

BACK-END
+ Java
+ Java Swing

FRAMEWORKS
+ JSP & Hibernate
+ Thymeleaf & Spring Boot mvc

FRONT-END
+ HTML, CSS, Boostrap5, AngularJS

DATABASE
+ MySQL, SQL - Server

SYSTEM
+ WebServer(Nginx, Apache)
+ Linux OS(Ubuntu, CentOS7)
+ Load Balancing

EDUCATION

BUSINESS INFORMATION TECHNOLOGY	**2021 - 2024**

FPT Polytechnic

PROJECT

POSITION: DEVERLOPER

CLOTHER-STORE	**July 2023 - August 2023**

Customer none

Team size Individual

Technology

Java, Thymeleaf, Spring Boot, RestAPI, Boostrap5, AngularJS, Postman, SQL - Server

Responsibility

- Writing database and connection code using Spring Data JPA
- Secure the site by writing a class that inherits Websecurityconfigureradapter and configure it inside: decentralized (DIRE, STAF, CUST), must be logged in to use protected functions (depending on permissions),...
- Use AngularJS to load data after getting data using RestAPI
- Use the existing website template, but edit accordingly and use Thymeleaf
- Create RestAPI with Java Spring Boot: write to retrieve logged-in users, or get all categories, add invoices, get all products, add edit delete products,...
- Use Postman to test whether RestAPI is working properly or not
- Use localstorage to make shopping-cart
- Write code that allows 'DIRE' users to delegate permissions to others (that person already has an account)

POSITION: DEVERLOPER

SHOES-STORE	**May 2023 - June 2023**

Customer none

Team size 4

Technology

Java, Spring Boot, JSP, Boostrap5, SQL - Server, Ajax

Responsibility

- Write code for sending mail: forgot password.
- Write code to add, edit, delete, update admin and client accounts
- Join in coding for adding, editing, deleting, and updating products
- Join in writing database connection code using Spring Data JPA

- Design the interface for the admin page, use HTML, CSS, and boostrap5 languages to write in the ".jsp" file to become the interface
- Participate in database design, and debugging: create 6 tables, define primary and foreign keys, linked by 1-to-many or many-to-many joins
- Join in writing DAO code: UserDAO, ProductDAO, OrderDAO,..

POSITION: DEVERLOPER

NETFLIX-CLONE   **March 2023** - **April 2023**

Customer none

Team size Individual

Technology

Java, JPA, Hibernate, SQL - Server

Responsibility

- Design all the interfaces on the website, use HTML, CSS, boostrap5, and angularJS languages to write in the ".jsp" file to become the interface
- Design the entire database on the website, write a JPA file to connect to the database, write abstract class DAO and classes that inherit it to work with the database
- Write a cookie file to remember the account
- Write a filter file for security when others get the link and can't access the account (users, admin)

POSITION: DEVERLOPER

APP MUSIC M&C   **November 2022** - **December 2022**

Customer none

Team size 3

Technology

Java Swing, JDBC, SQL - Server

Responsibility

- 3-page interface design: profile page, user management page, playlist page.
- Design the database.
- Functional programming of the profile page and user management page.
- Connection and working with the base by JDBC

WORKING ATTITUDE ————————————————————————————

- Being enthusiastic, and willing to learn.
- Have good teamwork skills
- Try to find and fix if there is a problem with the product
