PROFILE

I am currently studying Information Technology at Hanoi Open University. Although I am a first-year student, I completed the web programming with PHP/Laravel framework course and did my internship at the ZendVN Programming Training Center, so I hope to have an opportunity to join a new working environment gain experience in a real-world environment.

I can arrange my study time reasonably so that I can work full-time.

WORK EXPERIENCE

PHP/Laravel Internship

ZendVN Programming Training Center   12/2023 - 04/2024

- Back-end processing for PHP and Laravel framework.
