CAREER GOALS

Become an excellent Full-Stack developer

WORK EXPERIENCE

A SOFTWARE VIETNAM

3/2022 - 8/2022

INTERN WEB DEVELOPER

• Position: Back-end Developer

A SOFTWARE VIETNAM

8/2022 - 12/2023

WEB DEVELOPER

• Position:

+ Back-end developer using NestJs and Java Spring Boot

+ Front-end developer using Thymeleaf, ReactJs. HTML and CSS

PROJECT

1st Project

3/2022 - 6/2022

Description:
A web application to manage candidates' resumes

Members: 4

Role in project: Intern Back-end Developer

Responsibilities:

• Learned Back-end skills

• Built API

Technologies used:

• Java Spring Boot ,

• Restful API

• MySQL

2nd Project

5/2022 - 8/2022

Description:
A stock web-app to predict the stock market for users

Members: 4

Role in project: Intern Back-end Developer

Responsibilities:

• Learned Back-end skills, HTML and CSS for CMS

• Learned how to use Docker

• Built API for project and CMS

• Worked with team leader to design the database and integrated CI/CD for auto deploy to AWS-EC2

• Developed CMS

Technologies used:

• Java Spring Boot , Thymeleaf, Restful API

• MySQL, Firebase

• HTML, CSS

• Docker, CI/CD

• Bitbucket

3rd Project

7/2022 - 12/2022

Description:
A Loyalty web-app to accumulate points for users using Blockchain

Members: 5

Role in project: Fresher Back-end Developer

Responsibilities:
- Learned Javascript, Typescript, basic Nodejs and Nestjs framework
- Built API using NestJs
- Designed database,
- Optimized queries and used Mem-cache and Redis-cache to increase app's performance
- Integrated CI/CD for auto deploy to AWS-EC2
- Wrote Unit tests

Technologies used:
- NestJs , Restful API, TypeScript, TypeOrm
- PostgreSQL
- Redis
- Github
- Docker, CI/CD
- AWS

4th Project

9/2022 - 12/2023

Description:
A sport game with over 20.000 users so far

Members: 8

Role in project: Fresher Web Developer

Responsibilities:
- Learned ReactJs
- Built API using NestJs
- Built Authen/Author logic : Sign-in, Sign-up with social accounts and OTP for verify
- Built Chat platform for users in app with Web Socket
- Optimized queries and used Mem-cache and Redis-cache to increase app's performance
- Tested app performance with Stress testing
- Integrated CI/CD for auto deploy to AWS-EC2
- Integrated Firebase for tracking users' behavior and sending notifications
- Wrote Unit tests
- Worked with Front-end developer to design UI/UX

Technologies used:

Back-end
- NestJs, TypeScript, Prisma, Restful API
- Postgre AWS RDS,
- Redis, Firebase
- Web Socket
- Docker, CI/CD
- Github
- AWS

Front-end
- ReactJs
- Redux, Redux Toolkit
- HTML, CSS, Tailwind Css

GRADUATION PROJECT: HOSTEL MANAGEMENT
7/2023 - 12/2023

Description:
A web app for landlords to manage data and tenants to find accommodation

Member: 1

Role in project: Leader
Functions:
- Sign-in, Sign-up with Google or Email/Password
- Statistics data using charts and tables
- Search and filter data
- Chat with others users
- Send notification

Responsibilities:
- Built API using NestJs
- Built chat with Web Socket
- Designed database, optimized project performance
- Used Redis-cache and Mem-cache to increase app performance
- Integrated Firebase for tracking users' behavior and sending notifications
- Created UI/UX for users

Technologies used:

Back-end
- NestJs, TypeScript, Prisma, Restful API
- PostgreSQL,
- Redis, Firebase
- Web Socket
- Github

Front-end
- ReactJs
- Redux, Redux Toolkit
- HTML, CSS, Tailwind Css

EDUCATION

9/2019 - 1/2024

Banchelor: Computer Engineering

VNU - University of Engineering and Technology (UET)

- CPA : 3.32

SKILLS

English

- Can read, understand documents and communicate with customers in English

Work Skills

- NodeJs, Reactjs
- TypeScript
- TypeOrm, Prisma
- PostgreSQL, MySQL
- Web Socket
- CI/CD, Docker
- Firebase, Redis
- AWS

HOBBIES

- Programming
- Playing football
- Listening to music
- Participating in social activities

CERTIFICATES

ENGLISH:

Toeic 755 and VSTEP B2

AWS:

AWS SSA

PRIZES
