PERSONAL INFORMATION

- 16 - 11 - 2002
- thanh14147@gmail.com
- 0898228317
- Phuoc Kien, Nha Be, Ho Chi Minh City
- https://facebook.com/hthanhisme
- https://nguyenhoaithanh.tech

SKILLS

PROGRAMMING LANGUAGES
- Typescript
- Javascript

FRAMEWORKS
- ExpressJS
- NestJS
- ReactJS

DATABASES
- MongoDB
- SQL Server
- MySQL

DATA STRUCTURES AND ALGORITHMS
- Understanding the concepts of data structures (Array, Stack, Queue, Binary Tree...)
- Being able to apply algorithms and these data structures to solve typical problems

OTHERS
- Git
- Docker
- Jenkins

ENGLISH
- Able to read documents, basic communicate

NGUYEN HOAI THANH

WEB DEVELOPER

OBJECTIVES

Passionate Node.js developer intern eager to contribute to real-world projects, expand skills in building scalable applications, and learn from experienced professionals. Committed to making a positive impact and leveraging coding abilities for effective web development.

EDUCATION

🎓 **MAJOR : SOFTWARE ENGINEERING // 2020 - 2024 (Expect)**

Ton Duc Thang University

Junior Student
GPA: 3,2/4

PROJECTS

📝 **VOTE APP // 5/2023 - 6/2023**

Github: https://github.com/thanhisme/monorepo

Demo: https://voteapp.nguyenhoaithanh.tech

Technologies

Front End:
- Framework/Library: ReactJS
- State Management: Valtio
- Styling: Tailwind CSS

Back End:
- Platform: NodeJS
- Framework: NestJS

Database:
- Redis

Others:
- Socket IO
- Docker
- CI / CD with Jenkins

Core Features
- Create a new poll (have code room for others to join).
- Create nominations (ideas related to the poll's topic) for others to vote on.
- Get the result after finishing voting.
- Admin has the ability to kick participants.
- Able to reconnect to the poll when there is a connection failure.
